

“An Introduction to Spiritual Healing”

**Mathers House
Sessions
(Downstairs)
108 Bathurst
Street, Hobart.**

Welcome to Derwent Group of the USB, “An Introduction to Spiritual Healing,” sessions 2018. In context, these fortnightly discussion sessions, mindful meditation provide an opportunity for exploring both spiritual healing theory, and applying healing techniques. A primary resource in above literature is contained in The Universal Spiritual Brother&Sisterhood, USB, foundation teachings as contained in *Spiritual Light, SL*. According to *SL*, healing is one of the greatest gifts ‘we’ can offer others in this spiritual “Work,” **[Page 333, #1119]**. See footnote +

This year, a core component of these two hour sessions dedicates a 20 minute segment for intercession energy healing “Work.” At this point, our guides, spirit healers, and others who come in Love and Light are asked to join us as we convey healing thoughts to those individuals who requested ‘*distant healing.*’ Members of the Derwent Group can also request spiritual healing, to this end, we will also include various techniques. See also *SL* **[Page 318, #1102, 5]**

Where ever possible individual requests for healing should be followed up to determine how effective intercession healing has been—and whether it is still necessary to retain their names on the group’s spiritual healing list.

One background of Spiritual Healing is the “Works of Harry Edwards, one of the greatest spiritual healers of the last century, who was also the president of National Federation of Spiritualist Healers, UK. See website: www.harryedwardshealingsanctuary.org.uk/shop/index.php?product/page/22/Guide+To+The+Understanding+%26+Practice+Of+Spiritual+Healing

There are many mediums, healers, spiritual practitioners, individuals across the world who engage daily in important spiritual healing work. If available or possible, the Derwent USB Group will try to identify, and invite local ‘healing practitioners’ along to a specific session to share their experiences, and area of development(s). Before sessions commence on February 14th I strongly urge those with a *Spiritual Light* book to read, or even re-read **[Chapter 11, Pages 317-334 Types of Unorthodox Healing]**.

An A5 spiral bound Derwent Session Manual will be provided. This manual contains considerable information relating to health, healing practices, *SL* extracts, comparative book suggestions, and an Appendix. This process eliminates copious fact sheets being distributed. Further, and intentionally, the manual provides a solid base for inspiring, and exploring other facets of ‘*spiritual healing work.*’
